

KEYS TO ATTACKING CANCER

On 60 minutes they interviewed experts in the cancer field who had discovered that cancer cells are able to put up a **shield** that hides itself from the immune system. The immune system is not able to see the cancer tumor cells to know to attack. They found by inserting polio cells into the tumor and its shield that the immune system now recognizes this as enemy and is able to attack, hence devouring the tumor. A number of people have been healed.

It occurred to me since as believers we have this amazing power to speak in Jesus' Name and therefore **speak directly to the "cancer shield"** to fall permanently and to **then command the immune system to attack and devour the cancer cells**. We have this power but so many times don't where to direct the power.

As I see it the person needs to go through the door closing prayer first with major focus on forgiving, including themselves. (The preferred would be to go through a full deliverance for themselves or for their child if their minor child has the tumor.)

Speak directly to the "cancer shield" to fall permanently and to then command the immune system to attack and devour the cancer cells. Attack the "cancer shield" with the Word of God, commanding it to burst and disintegrate; then, command the immune system to attack and devour the cancer cells.

Blessings.
Everett
