22Q12 in my DNA structure.

- 7. I ask God to restore any gene that has mutated. I agree with Holy Spirit and healing angels to command restoration back to the structure that He planned for it to be from the foundation of the earth. By faith in Jesus' Name and the power of the Holy Spirit, I release healing and restoration to any mutated gene whether it was passed down genetically or suffered mutation from a virus or any other reason.**
- 8. By faith in Jesus' Name, I ask God to properly align any genes that are not lined up as they should be on the chromosomes. Come Holy Spirit. Come healing angels. Align the genes on the chromosomes.**
- 9. I release healing by faith in Jesus' Name to any changes in these genes or how they attach to the chromosomes.**
- 10. By faith in Jesus' Name, I release healing to any mutations located on Chromosomes 7Q11, 8p21-p22, 14Q13.**
- 11. By faith in Jesus' Name, I release the power of the Holy Spirit to heal genes PRODH2 and COMT that are located on Chromosome 22Q11.2.1 command any changes or deletions in the makeup of their protein that causes an inborn error of metabolism causing schizophrenia be healed and restored to what God intended it to be.**
- 12. By faith in Jesus' Name, I speak to every enzyme that is associated with, produced by,**

or controlled by PRODH2 or COMT... be balanced and brought into alignment with God's original plan.

- 13. I release healing and restoration to all genes, in Jesus' Name. We ask God to create, adjust and/or restore all genes as necessary. No matter the cause of the mutation, we call on Holy Spirit to heal and recreate any and every gene as is necessary. We agree with God to heal and restore each base pair to its intended function. By faith in Jesus' Name we agree with Almighty God to declare healing and restoration.**
